EXCITING

Comfort awaits you in abundance. The restaurant is a familiar space, welcoming, drawing upon European sensibilities but exuding a Floridian sense of ease. The buzz of the Dining Pergola is alive with patrons as the wait staff glide across neo-classic flooring. The hotel's aesthetic seeps into the design, echoing its fare. You may have arrived early and wish to take an early cocktail at the bar while you wait for a friend. The bar has a bold green face and the bartender is holding your favorite scotch. As you sit at the floral patterned stool, you hear the sound of swirling ice. The breeze flows through the pergola as you enjoy the refuge from the sun. You might think its fine enough to pass the day away stringing aperitifs with nightcaps after all.

CONCEPT

There is opulence and then there is opulence. Majestic design calls upon the soul, evoking an emotional response like a soft song.

A timeless combination of an evergreen design, recast as a poetic gesture to the vanguards, whispered into one's ear. In this case under the sun and within the shade, cast down through the filter of greenery, diaphanous, yet reserved in elegance.

Oblique lines set the stage offset against the striated pool tiles, wrapped in a cocoon of greenery. The muted apricot blush chaise lounge beckons royal appreciation for the pallet.
