Welcome to Higney International, a premier design and fulfillment company nestled in the heart of South Florida. Higney International is operated by CEO Peter Higney, a former twenty-five-year veteran and VP of Hotel Development for Nikki Beach Hotels & Resorts. "Creating venues that evoke an emotional response through their aesthetics is what drives us in pursuit of perfection."

As a premier hybrid design and furniture fulfillment company specializing in developing outdoor spaces for four- and five-star markets, we pride ourselves on bridging the gap between architects and clients to create spaces that are both aesthetically stunning and functionally efficient. From a project's inception, we work closely with both parties to understand their vision, preferences, and budgetary projections.

Our team of designers brings a wealth of expertise to the table, ensuring that every aspect of the design process is carefully curated to optimize both form and function. Whether it's crafting bespoke furniture pieces or conceptualizing entire spaces, our goal is to exceed expectations and transform visions into reality.

With Higney International, you can trust that your project is in capable hands, where creativity, craftsmanship, and client satisfaction are at the forefront of everything we do.

Clients

We understand that our clients' success lies in their brand's vision, and we are dedicated to amplifying that vision through exceptional design, planning and furniture solutions.

We believe that details matter and speak volumes about a brand's identity, and thus, we focus on delivering unparalleled quality, fit and exceptional durability.

Whether our clients are investing in capital expenditures or refurbishing their properties, we recognize that timing is critical, and that's where our expertise lies. We take pride in our ability to provide efficient and timely solutions, ensuring that our client's projects are completed smoothly and without delays.

Custom Fabrication

More commonly, our clients seek a unique design not found on the market. The reason for this is the need to distinguish oneself in a marketplace where outdoor venues are traditionally clustered together.

Our team has the experience to transform owners' concepts into a reality through the process of sampling and testing with certified partners to ensure product quality and durability.
