

Higney International is a **full-service FF&E design, procurement, and project management firm** for luxury hospitality. We take projects from concept through delivery — managing design, budgeting, sourcing, manufacturing oversight, logistics, and on-site coordination. Founded by **Peter Higney**, who spent **25 years operating beach clubs, hotels, and restaurants worldwide as COO of Nikki Beach** — bringing a rare operator's perspective to every design decision.

WHAT WE DO

FF&E Design & Specification

Complete furniture, fixture, and equipment packages — from concept sketches and 3D renderings through detailed specifications and construction drawings.

Procurement & Budget Management

Vendor-agnostic sourcing from the world's best manufacturers. We find the right product at the right price — whether that's a premium European maker or a cost-effective production partner.

Manufacturing Oversight

Quality control, shop drawing review, material approvals, and production timeline management across our global network of vetted manufacturers.

Logistics & Delivery

International shipping coordination, warehousing, customs clearance, and white-glove delivery to site — ready for your installation team.

Value Engineering

We know what works in the field because we've operated these venues. That means smarter material choices, realistic budgets, and designs that survive real-world hospitality use.

The Operator's Advantage

Most FF&E firms design from a catalog. We design from experience. Peter Higney operated 12 beach clubs and multiple hotels across four continents — managing the furniture, the guests, the weather, and the wear. That operational DNA shapes every specification we write. We don't just make it beautiful. We make it last.
